APPTRIANGLE LIMITED

WHO WE ARE?

Apptriangle is a global service provider company registered in **Australia and Bangladesh**. Our technology service and support team is in Bangladesh which has the expertise on different technologies in deploying, migrating and providing 24/7 technical support . We specialize in recruiting highly skilled support engineers to work for businesses around the world.

OUR OFFERINGS

- **Specialized support service team.**

- **Resource outsourcing:** where we can provide full-time support engineers to work remotely at lower wages than in-house resources.

- **Project outsourcing:** where companies can outsource their projects to us for a low cost.

CHALLENGES

- Shortage of skilled and experienced developers.
- Limited talent pool.
- High labor costs.
- Time zone differences with their trading partners.
- Cultural differences.

WHY Apptriangle?

Cost savings:

- Outsourcing avoids in-house team **Salaries**.
- Businesses can avoid **other expenses** such as **hiring**, **benefits**, and **office space.**

Easy to hire: Let us know your requirements (skills, Experience, etc.), and we will arrange the resource for you.

Easy-to-end contract: If required, the contract can be terminated within a short period of notice.

Change your resource: Outsourced resources can be changed by businesses anytime based on changing demand or new opportunities that require specialized or skilled resources.

Time zone advantages: Bangladesh's time zone overlaps with Europe, Asia, and Australia which can aid faster project delivery by reducing communication challenges.

Cultural similarity: We understand it is not always the technical challenges a company encounters when getting support from an overseas or a local provider, but a cultural one too. We are always open to adopt international work ethics.
